

BOBRICK

DESIGN

DURABLE

SUSTAINABLE

BUILDING VALUE SINCE 1906

Being Green and Seeing Green.

Bobrick takes its obligation to environmental sustainability in global product design and manufacturing seriously. BOBRICK GREEN is a public statement defining the Company's commitment to assist architects and building owners in the planning and implementation of a Green policy. The results are contributions to the LEED Certification Program, operating cost reductions and social responsibility.

Reduce & Reuse.

Bobrick's green leaf symbol is used on our corporate web site (bobrick.com) to signify particular products that save paper and/or reduce waste by complying with the US EPA Reduce & Reuse Resource Conservation Initiative.

Universal Roll Towel Dispensers Reduce Towel Use up to 30%.

- Adjustable towel lengths.
- Shorter second pull lengths.
- Zero waste stub roll utilization.

TowelMate® Reduces Towel Use up to 20%.

- Dispenses one folded paper towel at a time.
- Prevents dispensing by the handful.

- TB-88 Washroom Accessories LEED Information
- TB-95 Toilet Partition LEED Information
- TB-96 High Pressured Laminate (HPL) Toilet Partition LEED Information
- TB-97 Compact Laminate (CL) Solid Phenolic Toilet Partition LEED Information
- TB-98 Sierra Solid Color Reinforced Composite (SCRC) Toilet Partition LEED Information

Warm Air Hand Dryers Eliminate Paper Towels Completely.

- Towel trash removal also eliminated.
- 95% cost savings compared to paper towel usage.

Bulk Fill Foam Dispensers Eliminate Cartridges.

- No more disposal of partially-filled cartridges.
- Substantially reduced landfill impact.
- Lower refill costs.
- Uses less solution per hand wash than lotion soap.

Recycled Durable Materials.

- 50%-70% recycled stainless steel used for ConturaSeries®, TrimLineSeries® and ClassicSeries®.
- Robust fabrication stands up to heavy use, abuse and vandalism and reduces replacement cycles.

Koala Kare Baby Changing Stations.

- Contribute to LEED MR credits. Amount of recycled content varies by product.
- Manufactured with Microban® antimicrobial product protection.

Toilet Partition Series.

- Solid Color Reinforced Composite (SCRC) and Compact Laminate (CL) toilet partitions are manufactured of low-emitting materials.
- High Pressure Laminate (HPL) materials are available GREENGUARD® Indoor Air Quality Certified by the GREENGUARD Environmental Institute under the GREENGUARD standard for Low-Emitting Products.
- Toilet partition hardware fabricated of 50%-70% recycled stainless steel.

TowelMate Folded Paper Towel Dispenser Accessory

TowelMate dispenses one towel at time, reducing towel usage and waste by 20% or more, eliminating towel bunching and multiple dispensing. TowelMates easily install in Bobrick and other manufacturers' similar dispensers.

- 262-130
- 369-130
- 3803-130
- 39003-130
- 3944-130

ConturaSeries Folded Paper Towel Dispensers

All ConturaSeries paper towel dispensers include a built-in TowelMate feature offering the same paper savings as the retro-fittable TowelMate accessories.

- B-4262 Wall-Mounted
- B-4369 Combination with 3-gal. waste capacity
- B-43944 Combination with 15-gal. waste capacity

Universal Automatic Roll Paper Towel Dispensers

These models use economical roll paper towels that cost less, reduce waste and need less maintenance. They also help to protect the environment through automatic dispensing that reduces excess consumption. Their adjustable towel lengths and dispense timing promote

maximum conservation.

- B-2974 Wall-Mounted
- B-29744 Semi-Recessed
- B-3974 Combination with 12-gal. waste capacity
- 3974-150 Convertible Semi-Recessed Module

Warm Air Hand Dryers

Eliminate paper consumption and waste completely while saving up to 95% on operating costs. Our low-Watt dryers are high on performance.

- B-7120 ADA Compliant with White Steel Cover
- B-7128 ADA Compliant with Stainless Steel Cover
- B-7180 ADA Compliant with White Aluminum Cover*
- B-7188 ADA Compliant with Chromed Aluminum Cover*
- B-770 High-Speed with White Cast Aluminum Cover and Vandal-Resistant Grill
- B-778 High-Speed with Chromed Cast Aluminum Cover and Vandal-Resistant Grill
- B-3725 Recessed with Stainless Steel Cover*

SureFlo® Automatic Counter-Mounted Soap Dispensers

SureFlo dispensers' unique portion control feature allows building owners to reduce the amount of soap dispensed. Use of

non-proprietary bulk soap reduces post-consumer waste by up to 57%.

- B-824 Liquid Soap Dispenser
- B-828 Foam Soap Dispenser

Foam Soap Dispensers

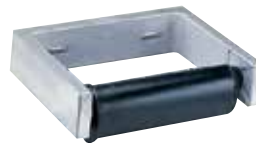

Foam uses up to 50% less solution than traditional liquid soap and requires less water to rinse.

- B-823 Manual Counter-Mounted
- B-828 Automatic Counter-Mounted
- B-2013 Automatic Wall-Mounted

Controlled Delivery Toilet Tissue Dispensers

Reduce paper usage with controlled delivery.

- B-273 Surface-Mounted Heavy Duty Single Roll Dispenser with satin finish
- B-274 Surface-Mounted Heavy Duty Double Roll Dispenser with satin finish

Koala Kare® brand Baby Changing Stations

Our baby changing stations are made with pre- and post-consumer recycled content. Total recycled content for LEED contribution is below.

- KB100-ST Polyethylene/ Stainless steel = 48%
- KB101 Polyethylene = 46%
- KB102 Polyethylene = 31%
- KB110 Stainless Steel = 55%
- KB111 Stainless Steel = 68%
- KB200 Polypropylene = 16%
